The institution shall maintain, for each student granted a certificate by that institution, permanent records of all of the following:

- The courses on which the certificate was based.
- The grades earned by the student in each of those courses.

Records Retention—the institution shall maintain, for a period of not less than five years, at its principal place of business all the records listed above. Transcripts will maintained permanently.

PROGRESS POLICY

1. Due to the varied capabilities of individual students, some may progress from one phase of training to another at a more rapid rate. Therefore, all students must not only have at least (160 hrs.-Cosmetology; 50 hrs.-Nail Care; 80 hours Skin Care) but also satisfactorily meet subject requirements before passing from the freshman class to the clinic floor.
2. **ACADEMIC PROGRESS EVALUATION:** Academic progress is measured each month. A student must maintain a grade of "C" or 70% to be considered making satisfactory academic progress. Academic Progress is a measurement of the student's written test scores, worksheet scores, projects scores, and make up work. At least one of these items will be completed each week.
3. **PRACTICAL PROGRESS EVALUATION:** Practical progress is recorded on a daily basis on the back of the student's time card. The student is measured on their practical performance each day. A point system is used. The points are recorded on the student's daily time slip and cumulated for the week. An instructor for credit will sign each operation. The operation sheet must be turned in each week for credit. Students turning in the time sheet late must have a documented absence to receive credit. The grading criteria for this performance evaluation will be the "NIC Criteria", published by the Board of Barbering and Cosmetology.
4. **ATTENDANCE PROGRESS EVALUATION:** Attendance progress is measured each month. A student must maintain a 70% attendance average to be considered making satisfactory progress. Approved excused absences will not count against the student in maintaining the 70% figure.
5. **ABSENCES:** If a student is on an approved absence and making satisfactory progress, they will be considered to be making satisfactory progress on their return. If a student is making unsatisfactory progress at the time of their absence, they will be considered to be making unsatisfactory progress upon their return. After returning from their absence and making unsatisfactory progress, they will be placed on probation. The Probation Requirements are outlined in this policy.
6. **DETERMINATION OF STATUS:** In order to maintain Satisfactory Progress a student must be making a "C" grade or 70% for attendance, practical operations, and test scores.
7. **PROBATION:** If a student falls below the attendance, academic, or practical progress average they will be given one a minimum of one week to cure those deficiencies before being put on probation. If after one month on probation the student's attendance, academic, or practical progress averages are still below 70%, they may be dismissed from the program. In case of an approved absence, a student making satisfactory progress will be considered still making satisfactory progress on their return. If they were not making satisfactory progress they will have a minimum of one (1) week to cure their deficiency upon returning to school.
8. **DISMISSAL:** If a student does not meet the probation requirements they may be withdrawn from the course for unsatisfactory progress. They will not be re-admitted until a period of 6 months has elapsed. At the time of re-admission the applicant must be able to demonstrate their ability to complete the course. A

second re-instatement will not be granted. The school's conduct policy is outlined in the school's Rules and Regulation. Violation of the School's Rules and Regulations are just cause for dismissal.

LEAVE OF ABSENCE:

1. An authorized leave of absence (LOA) is a temporary interruption in a student's program of study. LOA refers to the specific time period during a program when a student is not in attendance. An LOA is not required if a student is not in attendance only for an institutionally scheduled break. However, a scheduled break may occur during an LOA.
2. An LOA must meet certain conditions to be counted as a temporary interruption in a student's education instead of being counted as a withdrawal requiring an institution to perform a refund calculation. In order for an LOA to qualify as an approved LOA:
3. All requests for leaves of absence must be submitted in advance in writing, include the reason for the student's request, and include the student's signature.
4. Considerations for granting an LOA:
 - a. The student must follow the institutions policy.
 - b. There must be a reasonable expectation that the student will return from the LOA.
 - c. The approval must be made by the institutions supervisor.
 - d. A normal LOA does not exceed 60 days.
 - e. The LOA together with any additional leaves of absence must not exceed a total of 180 day in any 12-month period of time.
5. The institution may not assess the student any additional institutional charges as a result of the LOA.
6. A student granted an LOA that meets these criteria is not considered to have withdrawn, and no refund calculation is required at that time;
7. The institution will extend the students' maximum time frame and the contract period by the same number of days taken in the LOA. Changes to the contract period on the enrollment agreement must be initialed by all parties or an addendum must be signed and dated by all parties.
8. If a student does not return to the institution at the expiration of an approved LOA (or a student takes an unapproved LOA), the student's withdrawal date is the date the student began the LOA. At an institution required to take attendance, the withdrawal date for the purpose of calculating a refund is always student's last day of attendance.
9. The request must be in writing unless unforeseen circumstances prevent the student from doing so. For example, if a student were injured in a car accident and needed a few weeks to recover before returning to institution, the student would not have been able to request the LOA in advance.
10. The institution may grant an LOA to a student who did not provide the request prior to the LOA due to unforeseen circumstances if the institution documents the reason for its decision and collects the request from the student at a later date. In this example, *the beginning date of the approved LOA would be determined by the institution to be the first date the student was unable to attend the institution because of the accident.*

4. Excessive absences (3 consecutive days) or excessive tardiness will be reviewed by the school and can result in dismissal or suspension until such time that the student can continue in school without such absences or tardiness. The school can excuse an absence. Approved documentation must be provided. The student, however, will be required to complete the prescribed work that has been missed.

Job placement assistance is provided to students and graduates at no additional charge. Graduates are also entitled to continued advice, and assistance that is offered by the school staff as they enter the professional world of cosmetology.
