FAQ's

Why does it cost so much MORE to go OTHER nearby schools? Why are your fees so much more reasonable?

We do not offer loans. The underwriting, credit scoring, tracking, reporting, and collecting of loans is very expensive which dramatically raises the cost for everyone.

We don't allow students to go to school now and pay later because when some students don't pay this increases the cost for those that do. Why should you pay for someone else to go to school?

At our school students pay their tuition monthly -while in school - which dramatically lowers our costs, keeps tuition low for everyone, ensures students graduate debt free!

Do I have to pay the total cost up front?

No. You make a down payment at the time of enrollment and you pay the balance monthly while you are in school.

How much are the financing fees and interest?

There are NO financing fees. We do not charge interest or late payment fees.

**Flexible schedules from
16 to 56 hours per week.**
